The bond shall be in an amount determined by the board to be the estimated reasonable costs to perform the reclamation activities described in the exploration and reclamation plan in the event of the failure of the operator to complete those activities, plus ten percent (10%) of such costs, and conditioned on the payment of all damages to the land and resources thereon caused by the entry and/or motorized exploration., with motorized equipment; provided, that where applicable, aAn operator shall also comply with the dredge and placer mining act, chapter 13, title 47, Idaho Code, and the surface mining act, chapter 15, title 47, Idaho Code, where applicable. Written approval by the board is required prior to entry for motorized exploration prior to entry.

- Except as provided in this subsection, no bond for exploration reclamation submitted pursuant to this chapter shall exceed two thousand five hundred dollars (\$2,500) for any given acre of affected land. The board may require a bond in excess of two thousand five hundred dollars (\$2,500) for any given acre of affected land only when the following conditions have been met:
  - (a) The board has determined that such bond is necessary to meet the requirements of this chapter;

- (b) The board has delivered to the operator, in writing, a notice setting forth the reasons it believes such bond is necessary; and
- (c) The board has conducted a hearing where the operator is allowed to give testimony to the board concerning the amount of the proposed bond. The hearing shall be held under such rules as promulgated by the board. This requirement for hearing may be waived, in writing, by the operator. Any hearing that is held shall, at the discretion of the director, extend the time up to thirty (30) days in which the board must act on a submitted plan.

Any notice of rejection issued by the director of the department of lands or his properly authorized designated officer may be appealed by the operator to the board.

Upon the determination by the board that the reclamation activities in question have been satisfactorily completed, the board shall release the bond. If weather conditions prevent the board from obtaining information needed to determine if the reclamation activities have been satisfactorily completed, it may, in writing to the operator, extend the time not to exceed thirty (30) days after weather conditions permit such inspection.
